# Chapter 1

## Namespace Index

### 1.1 Namespace List

Here is a list of all documented namespaces with brief descriptions:

[souvenir.contact.tests](#) . . . . . ??

## Chapter 2

# Hierarchical Index

### 2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

TuxieMagick.Dimension . . . . .	??
Form	
souvenir.contact.forms.ContactForm . . . . .	??
souvenir.userprofile.forms.AvatarCropForm . . . . .	??
souvenir.userprofile.forms.AvatarForm . . . . .	??
souvenir.userprofile.forms.EmailValidationForm . . . . .	??
souvenir.userprofile.forms.RegistrationForm . . . . .	??
TuxieMagick.Image . . . . .	??
Manager	
souvenir.userprofile.models.EmailValidationManager . . . . .	??
souvenir.userprofile.forms.LocationForm.Meta . . . . .	??
souvenir.userprofile.models.BaseProfile.Meta . . . . .	??
souvenir.userprofile.forms.ProfileForm.Meta . . . . .	??
souvenir.userprofile.models.Avatar.Meta . . . . .	??
souvenir.userprofile.forms.PublicFieldsForm.Meta . . . . .	??
Model	
souvenir.userprofile.models.Avatar . . . . .	??
souvenir.userprofile.models.BaseProfile . . . . .	??
souvenir.student.models.Profile . . . . .	??
souvenir.userprofile.models.EmailValidation . . . . .	??
ModelAdmin	
souvenir.student.admin.ProfileAdmin . . . . .	??
souvenir.userprofile.admin.EmailValidationAdmin . . . . .	??
ModelForm	
souvenir.userprofile.forms.LocationForm . . . . .	??
souvenir.userprofile.forms.ProfileForm . . . . .	??
souvenir.userprofile.forms.PublicFieldsForm . . . . .	??
CharField	
souvenir.userprofile.countries.CountryField . . . . .	??
Node	
souvenir.userprofile.templatetags.avatars.ResizedThumbnailNode . . . . .	??
souvenir.userprofile.templatetags.avatars.ResizedThumbnailNode . . . . .	??
TestCase	
souvenir.contact.tests.SimpleTest . . . . .	??

## Chapter 3

# Class Index

### 3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

<a href="#">souvenir.userprofile.models.Avatar</a>	??
<a href="#">souvenir.userprofile.forms.AvatarCropForm</a>	??
<a href="#">souvenir.userprofile.forms.AvatarForm</a>	??
<a href="#">souvenir.userprofile.models.BaseProfile</a>	??
<a href="#">souvenir.contact.forms.ContactForm</a>	??
<a href="#">souvenir.userprofile.countries.CountryField</a>	??
<a href="#">TuxieMagick.Dimension</a>	??
<a href="#">souvenir.userprofile.models.EmailValidation</a>	??
<a href="#">souvenir.userprofile.admin.EmailValidationAdmin</a>	??
<a href="#">souvenir.userprofile.forms.EmailValidationForm</a>	??
<a href="#">souvenir.userprofile.models.EmailValidationManager</a>	??
<a href="#">TuxieMagick.Image</a>	??
<a href="#">souvenir.userprofile.forms.LocationForm</a>	??
<a href="#">souvenir.userprofile.forms.LocationForm.Meta</a>	??
<a href="#">souvenir.userprofile.models.BaseProfile.Meta</a>	??
<a href="#">souvenir.userprofile.forms.ProfileForm.Meta</a>	??
<a href="#">souvenir.userprofile.models.Avatar.Meta</a>	??
<a href="#">souvenir.userprofile.forms.PublicFieldsForm.Meta</a>	??
<a href="#">souvenir.student.models.Profile</a>	??
<a href="#">souvenir.student.admin.ProfileAdmin</a>	??
<a href="#">souvenir.userprofile.forms.ProfileForm</a>	??
<a href="#">souvenir.userprofile.forms.PublicFieldsForm</a>	??
<a href="#">souvenir.userprofile.forms.RegistrationForm</a>	??
<a href="#">souvenir.userprofile.templatetags.avatars.ResizedThumbnailNode</a>	??
<a href="#">souvenir.contact.tests.SimpleTest</a>	??

## Chapter 4

# Namespace Documentation

### 4.1 souvenir.contact.tests Namespace Reference

#### Classes

- class [SimpleTest](#)

#### Variables

- dictionary `__test__` = {"doctest": ""Another way to test that 1 + 1 is equal to 2.>>> 1 + 1 == 2True""}

#### 4.1.1 Detailed Description

This file demonstrates two different styles of tests (one doctest and one unittest). These will both pass when you run "manage.py test".

Replace these with more appropriate tests for your application.

## Chapter 5

# Class Documentation

### 5.1 souvenir.userprofile.models.Avatar Class Reference

Inheritance diagram for souvenir.userprofile.models.Avatar:

#### Classes

- class [Meta](#)

#### Public Member Functions

- def **\_\_unicode\_\_**
- def **delete**
- def **save**

#### Static Public Attributes

- tuple **image** = models.ImageField(upload\_to="avatars/%Y/%b/%d")
- tuple **user** = models.ForeignKey(User)
- tuple **date** = models.DateTimeField(auto\_now\_add=True)
- tuple **valid** = models.BooleanField()

#### 5.1.1 Detailed Description

Avatar model

The documentation for this class was generated from the following file:

- `userprofile/models.py`

## 5.2 souvenir.userprofile.forms.AvatarCropForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.AvatarCropForm:

### Public Member Functions

- def **clean**

### Static Public Attributes

- tuple **top** = forms.IntegerField()
- tuple **bottom** = forms.IntegerField()
- tuple **left** = forms.IntegerField()
- tuple **right** = forms.IntegerField()

### 5.2.1 Detailed Description

Crop dimensions form

The documentation for this class was generated from the following file:

- `userprofile/forms.py`

## 5.3 souvenir.userprofile.forms.AvatarForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.AvatarForm:

### Public Member Functions

- def **clean\_url**
- def **clean**

### Static Public Attributes

- tuple **photo** = forms.ImageField(required=False)
- tuple **url** = forms.URLField(required=False)

### 5.3.1 Detailed Description

The avatar form requires only one image field.

The documentation for this class was generated from the following file:

- `userprofile/forms.py`

## 5.4 souvenir.userprofile.models.BaseProfile Class Reference

Inheritance diagram for `souvenir.userprofile.models.BaseProfile`:

### Classes

- class [Meta](#)

### Public Member Functions

- def **has\_avatar**
- def **\_\_unicode\_\_**
- def **get\_absolute\_url**

### Static Public Attributes

- tuple **user** = `models.ForeignKey(User, unique=True)`
- tuple **date** = `models.DateTimeField(default=datetime.datetime.now)`
- tuple **country** = `CountryField(null=True, default='India', blank=True )`
- tuple **latitude** = `models.DecimalField(max_digits=10, decimal_places=6, blank=True, null=True)`
- tuple **longitude** = `models.DecimalField(max_digits=10, decimal_places=6, blank=True, null=True)`
- tuple **location** = `models.CharField(max_length=255, blank=True)`

### 5.4.1 Detailed Description

User profile model

The documentation for this class was generated from the following file:

- `userprofile/models.py`

## 5.5 souvenir.contact.forms.ContactForm Class Reference

Inheritance diagram for souvenir.contact.forms.ContactForm:

### Static Public Attributes

- tuple **subject** = forms.CharField(max\_length=100)
- tuple **email** = forms.EmailField( label='Your e-mail address')
- tuple **message** = forms.CharField(widget=forms.Textarea)

The documentation for this class was generated from the following file:

- contact/forms.py

## 5.6 souvenir.userprofile.countries.CountryField Class Reference

Inheritance diagram for souvenir.userprofile.countries.CountryField:

### Public Member Functions

- def **\_\_init\_\_**
- def **get\_internal\_type**

The documentation for this class was generated from the following file:

- userprofile/countries.py

## 5.7 TuxieMagick.Dimension Class Reference

### Public Member Functions

- def **\_\_init\_\_**
- def **\_\_str\_\_**
- def **width**
- def **height**

## Public Attributes

- **image**

The documentation for this class was generated from the following file:

- `userprofile/utis/TuxieMagick.py`

## 5.8 souvenir.userprofile.models.EmailValidation Class Reference

Inheritance diagram for `souvenir.userprofile.models.EmailValidation`:

## Public Member Functions

- `def __unicode__`
- `def is_expired`
- `def resend`

## Public Attributes

- **created**

## Static Public Attributes

- tuple **user** = `models.ForeignKey(User, unique=True)`
- tuple **email** = `models.EmailField(blank=True)`
- tuple **key** = `models.CharField(max_length=70, unique=True, db_index=True)`
- tuple **created** = `models.DateTimeField(auto_now_add=True)`
- tuple **objects** = `EmailValidationManager\(\)`

### 5.8.1 Detailed Description

Email Validation model

### 5.8.2 Member Function Documentation

#### 5.8.2.1 `def souvenir.userprofile.models.EmailValidation.resend ( self )`

Resend validation email

The documentation for this class was generated from the following file:

- `userprofile/models.py`

## 5.9 souvenir.userprofile.admin.EmailValidationAdmin Class Reference

Inheritance diagram for souvenir.userprofile.admin.EmailValidationAdmin:

### Static Public Attributes

- tuple **list\_display** = ('\_\_unicode\_\_',)
- tuple **search\_fields** = ('user\_\_username', 'user\_\_first\_name')

The documentation for this class was generated from the following file:

- userprofile/admin.py

## 5.10 souvenir.userprofile.forms.EmailValidationForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.EmailValidationForm:

### Public Member Functions

- def [clean\\_email](#)

### Static Public Attributes

- tuple **email** = forms.EmailField()

### 5.10.1 Member Function Documentation

#### 5.10.1.1 def souvenir.userprofile.forms.EmailValidationForm.clean\_email ( self )

Verify that the email exists

The documentation for this class was generated from the following file:

- userprofile/forms.py

## 5.11 souvenir.userprofile.models.EmailValidationManager Class Reference

Inheritance diagram for souvenir.userprofile.models.EmailValidationManager:

### Public Member Functions

- def **verify**
- def **getuser**
- def **add**

### Public Attributes

- **key**

#### 5.11.1 Detailed Description

Email validation manager

#### 5.11.2 Member Function Documentation

##### 5.11.2.1 def souvenir.userprofile.models.EmailValidationManager.add ( self, user, email )

Add a new validation process entry

The documentation for this class was generated from the following file:

- userprofile/models.py

## 5.12 TuxieMagick.Image Class Reference

### Public Member Functions

- def **\_\_init\_\_**
- def **size**
- def **scale**
- def **crop**
- def **write**
- def **watermark**
- def **comment**

## Public Attributes

- **y**
- **actions**
- **exists**
- **filename**
- **x**
- **crop**
- **crop\_gravity**
- **brightness**
- **watermark**
- **gravity**
- **comment**

The documentation for this class was generated from the following file:

- `userprofile/utls/TuxieMagick.py`

## 5.13 souvenir.userprofile.forms.LocationForm Class Reference

Inheritance diagram for `souvenir.userprofile.forms.LocationForm`:

## Classes

- class [Meta](#)

### 5.13.1 Detailed Description

`Profile location form`

The documentation for this class was generated from the following file:

- `userprofile/forms.py`

## 5.14 souvenir.userprofile.forms.LocationForm.Meta Class Reference

### Static Public Attributes

- **model** = `Profile`
- tuple **fields** = `('location', 'latitude', 'longitude', 'country')`

The documentation for this class was generated from the following file:

- `userprofile/forms.py`

## 5.15 souvenir.userprofile.models.BaseProfile.Meta Class Reference

### Static Public Attributes

- **abstract** = True

The documentation for this class was generated from the following file:

- userprofile/models.py

## 5.16 souvenir.userprofile.forms.ProfileForm.Meta Class Reference

### Static Public Attributes

- **model** = Profile
- tuple **exclude**

### 5.16.1 Member Data Documentation

#### 5.16.1.1 tuple souvenir.userprofile.forms.ProfileForm.Meta.exclude [static]

**Initial value:**

```
1 = ('date', 'location', 'latitude', 'longitude', 'country',  
2     'user', 'public')
```

The documentation for this class was generated from the following file:

- userprofile/forms.py

## 5.17 souvenir.userprofile.models.Avatar.Meta Class Reference

### Static Public Attributes

- tuple **unique\_together** = (('user', 'valid'),)

The documentation for this class was generated from the following file:

- userprofile/models.py

## 5.18 souvenir.userprofile.forms.PublicFieldsForm.Meta Class Reference

### Static Public Attributes

- **model** = Profile
- tuple **exclude** = ('date', 'user', 'public')

The documentation for this class was generated from the following file:

- userprofile/forms.py

## 5.19 souvenir.student.models.Profile Class Reference

Inheritance diagram for souvenir.student.models.Profile:

### Static Public Attributes

- tuple **firstname** = models.CharField(max\_length=255)
- tuple **middlename** = models.CharField(max\_length=255, blank=True )
- tuple **lastname** = models.CharField(max\_length=255, blank=True)
- tuple **gender** = models.CharField(max\_length=1, choices=GENDER\_CHOICES)
- tuple **course** = models.CharField(max\_length=15, choices=COUSRE\_CHOICES)
- tuple **branch** = models.CharField(max\_length=50, help\_text="(only for B.Tech Students)", choices=BRANCH\_CHOICES, blank=True)
- tuple **class\_roll\_no** = models.IntegerField(null=True)
- tuple **photo** = models.ImageField(upload\_to = 'files' ,help\_text="(Only use Passport Size photo)")
- tuple **father\_name** = models.CharField(max\_length=100)
- tuple **mother\_name** = models.CharField(max\_length=100)
- tuple **birthdate** = models.DateField(default=datetime.date.today())
- tuple **address\_1** = models.CharField(max\_length=255, )
- tuple **address\_2** = models.CharField(max\_length=255, blank=True )
- tuple **city** = models.CharField(max\_length=255)
- tuple **pin\_code** = models.IntegerField(null=True)
- tuple **state** = models.CharField(max\_length=30, choices=STATES\_CHOICES, default='Punjab')
- tuple **email** = models.EmailField()
- tuple **contact\_no** = models.CharField(max\_length=25)
- tuple **comments** = models.TextField()

### Additional Inherited Members

The documentation for this class was generated from the following file:

- student/models.py

## 5.20 souvenir.student.admin.ProfileAdmin Class Reference

Inheritance diagram for souvenir.student.admin.ProfileAdmin:

### Static Public Attributes

- tuple **list\_display** = ('user', 'date','class\_roll\_no' )
- tuple **search\_fields** = ('name',)

The documentation for this class was generated from the following file:

- student/admin.py

## 5.21 souvenir.userprofile.forms.ProfileForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.ProfileForm:

### Classes

- class [Meta](#)

#### 5.21.1 Detailed Description

Profile Form. Composed by all the Profile model fields.

The documentation for this class was generated from the following file:

- userprofile/forms.py

## 5.22 souvenir.userprofile.forms.PublicFieldsForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.PublicFieldsForm:

### Classes

- class [Meta](#)

#### 5.22.1 Detailed Description

Public Fields of the Profile Form. Composed by all the Profile model fields.

The documentation for this class was generated from the following file:

- userprofile/forms.py

## 5.23 souvenir.userprofile.forms.RegistrationForm Class Reference

Inheritance diagram for souvenir.userprofile.forms.RegistrationForm:

### Public Member Functions

- def [clean\\_username](#)
- def [clean](#)
- def [clean\\_email](#)

### Static Public Attributes

- tuple **username** = forms.CharField(max\_length=255, min\_length = 3, label=\_("Username"))
- tuple **email** = forms.EmailField(required=False, label=\_("E-mail address"))
- tuple **password1** = forms.CharField(widget=forms.PasswordInput, label=\_("Password"))
- tuple **password2** = forms.CharField(widget=forms.PasswordInput, label=\_("Password (again)"))

### 5.23.1 Member Function Documentation

#### 5.23.1.1 def souvenir.userprofile.forms.RegistrationForm.clean ( self )

Verify that the 2 passwords fields are equal

#### 5.23.1.2 def souvenir.userprofile.forms.RegistrationForm.clean\_email ( self )

Verify that the email exists

#### 5.23.1.3 def souvenir.userprofile.forms.RegistrationForm.clean\_username ( self )

Verify that the username isn't already registered

The documentation for this class was generated from the following file:

- `userprofile/forms.py`

## 5.24 souvenir.userprofile.templatetags.avatars.ResizedThumbnailNode Class Reference

Inheritance diagram for souvenir.userprofile.templatetags.avatars.ResizedThumbnailNode:

## Public Member Functions

- def `__init__`
- def `get_user`
- def `size_equals`
- def `get_profile`
- def `get_file`
- def `as_url`
- def `render`
- def `__init__`
- def `render`

## Public Attributes

- `size`
- `user`

The documentation for this class was generated from the following files:

- `userprofile/templatetags/avatars.original.py`
- `userprofile/templatetags/avatars.py`

## 5.25 souvenir.contact.tests.SimpleTest Class Reference

Inheritance diagram for `souvenir.contact.tests.SimpleTest`:

## Public Member Functions

- def `test_basic_addition`

### 5.25.1 Member Function Documentation

#### 5.25.1.1 def souvenir.contact.tests.SimpleTest.test\_basic\_addition ( self )

Tests that `1 + 1` always equals `2`.

The documentation for this class was generated from the following file:

- `contact/tests.py`
